

Index to Volume 38

Authors and Titles

- Andersen, A. N.—
Andromonoecy in four Australian species of
Leptospermum 511
- Ash, J. E. See Willis, A. J. 217; May,
F. E. 245
- Ashton, D. H. See Clayton-Greene, K. A. 403
- Atkins, C. A. See Craig, G. F. 619
- Atkins, L. See Hobbs, R. J. 97
- Auld, T. D.—
The survival of juvenile plants of the
resprouting shrub *Angophora hispida*
(Myrtaceae) after a simulated low-intensity
fire 255
- Baroni Fornasiero, R. See Medeghini
Bonatti, P. 53
- Batjanoff, G. N., Reeves, R. D., and Specht,
R. L.—
Stackhousia tryonii: a nickel-accumulating
serpentine-endemic species of central
Queensland 121
- Becker, S. L. See Marks, G. C. 341
- Bell, D. T. See Bellairs, S. M. 451; Craig,
G. F. 619
- Bell, J. C. See Prober, S. M. 79
- Bell, L. C. See Olsen, J. K. 281
- Bellairs, S. M., and Bell, D. T.—
Temperature effects on the seed germination
of ten Kwongan species from Eneabba,
Western Australia 451
- Blacklow, W. M. See Kon, K. F. 609
- Boughton, V. H.—
Aspects of phyllode anatomy in some
Australian phyllodinous acacias, with
particular regard to stickiness 131
- Bowman, D. M. J. S., Panton, W. J., and
McDonough, L.—
Dynamics of forest clumps on chenier plains,
Cobourg Peninsula, Northern
Territory 593
- Burrows, G. E.—
Anatomical aspects of root bud development
in hoop pine (*Araucaria cunninghamii*) 73
- Busby, J. R. See Read, J. 185
- Cameron, B. G., and Prakash, N.—
Occurrence of giant antipodals in the female
gametophytes of Australian Bossiaceae,
Indigoferae and Mirbelieae
(Leguminosae) 395
- Carr, D. J., and Carr, S. G. M.—
Staurocytic stomatal complexes in species of
Monocalyptus sensu Carr and Carr
(*Eucalyptus*: Myrtaceae) 45
- Carr, (the late) S. G. M. See Carr, D. J. 45
- Chopra, R. N., and Vashistha, B. D.—
The effect of auxins and antiauxins on shoot-
bud induction and morphology in the moss,
Bryum atrovirens 177
- Clayton-Greene, K. A., and Ashton, D. H.—
The dynamics of *Callitris columellaris*/
Eucalyptus albens communities along the
Snowy River and its tributaries in south-
eastern Australia 403
- Craig, G. F., Bell, D. T., and Atkins, C. A.—
Response to salt and waterlogging stress of ten
taxa of *Acacia* selected from naturally
saline areas of Western Australia 619
- Craig, I. See Old, K. M. 571
- Czeczuga, B., and Kantvilas, G.—
Carotenoids in lichens from Tasmanian
forests 517
- Dixon, K. W. See Meney, K. A. 523, 543
- Dodd, W. A. See Kantharajah, A. S. 169
- Fuss, A. M., and Sedgley, M.—
Floral initiation and development in relation
to the time of flowering in *Banksia coccinea*
and *B. menziesii* (Proteaceae) 487
- Gibbs, R. See Old, K. M. 571
- Gibson, N.—
The environments and primary production of
cushion species at Mt Field and Mt
Wellington, Tasmania 229
- Goldingay, R. L., and Whelan, R. J.—
Breeding system and tests for pollen-limitation
in two species of *Banksia* 63
- Gore, P. L., Potts, B. M., Volker, P. W., and
Megalos, J.—
Unilateral cross-incompatibility in
Eucalyptus: the case of hybridisation
between *E. globulus* and *E. nitens* 383
- Graham, A. W., and Hopkins, M. S.—
Soil seed banks of adjacent unlogged
rainforest types in north Queensland 261

- Gross, C. L.—
The breeding systems of three co-occurring legumes: *Dillwynia hispida*, *D. uncinata* and *Pultenaea densifolia* (Leguminosae: Papilionoideae) 207
- Heide-Jørgensen, H. S.—
Xeromorphic leaves of *Hakea suaveolens*. IV. Ontogeny, structure and function of the sclereids 25
- Hobbs, R. J., and Atkins, L.—
Fire-related dynamics of a *Banksia* woodland in south-western Western Australia 97
- Hodgkinson, K. C., and Oxley, R. E.—
Influence of fire and edaphic factors on germination of the arid zone shrubs *Acacia aneura*, *Cassia nemophila* and *Dodonaea viscosa* 269
- Hopkins, M. S. See Graham, A. W. 261
- Howell, G., and Prakash, N.—
Embryology and reproductive ecology of the Darling lily, *Crinum flaccidum* 433
- Johnston, R. D. See Lacey, C. J. 299
- Kanharajah, A. S., and Dodd, W. A.—
Factors that influence the yield and viability of cucumber (*Cucumis sativus*) cotyledon protoplasts 169
- Kantvilas, G. See Czczuga, B. 517
- Kodala, P. G.—
Modern pollen rain from forest communities on the Robertson Plateau, New South Wales 1
- Kon, K. F., and Blacklow, W. M.—
Polymorphism, outcrossing and polyploidy in *Bromus diandrus* and *B. rigidus* 609
- Lacey, C. J., and Johnston, R. D.—
Woody clumps and clumpwoods 299
- Lamont, B. B. See Low, A. B. 351
- Lonie, J. S. See Peters, G. B. 559
- Low, A. B., and Lamont, B. B.—
Aerial and below-ground phytomass of *Banksia* scrub-heath at Enyabba, south-western Australia 351
- Marks, G. C., and Becker, S. L.—
Influence of propazine and chlorthal dimethyl on mycorrhizal development in *Pinus radiata* seedlings 341
- May, F. E., and Ash, J. E.—
An assessment of the allelopathic potential of *Eucalyptus* 245
- Maze, K. M., and Whalley, R. D. B.—
Sex ratios and related characteristics in *Spinifex sericeus* (Poaceae) 153
- McDonough, L. See Bowman, D. M. J. S. 593
- McFarland, D. C.—
Flower and seed phenology of some plants in the subtropical heathlands of Coolool National Park, Queensland, Australia 501
- McGee, P. A.—
Survival and growth of seedlings of coachwood (*Ceratopetalum apetalum*): effects of shade, mycorrhizas and a companion plant 583
- McIntyre, S., and Whalley, R. D. B.—
Co-occurrence of *Vulpia* species on the northern tablelands of New South Wales 445
- Medeghini Bonatti, P., and Baroni Fornasiero, R.—
Developmental pattern and structural organisation of leaf chloroplasts in *Lepidozamia peroffskyana* 53
- Megalos, J. See Gore, P. L. 383
- Melick, D. R.—
Regenerative succession of *Tristaniopsis laurina* and *Acmena smithii* in riparian warm temperate rainforest in Victoria, in relation to light and nutrient regimes 111
Relative drought resistance of *Tristaniopsis laurina* and *Acmena smithii* from riparian warm temperate rainforest in Victoria 361
Flood resistance of *Tristaniopsis laurina* and *Acmena smithii* from riparian warm temperate rainforest in Victoria 371
- Meney, K. A., Pate, J. S., and Dixon, K. W.—
Comparative morphology, anatomy, phenology and reproductive biology of *Alexgeorgea* spp. (Restionaceae) from south-western Western Australia 523
Phenology of growth and resource deployment in *Alexgeorgea nitens* (Restionaceae), a clonal species from south-western Western Australia 543
- Moran, G. F. See Prober, S. M. 79; Peters, G. B. 559
- Myers, B. J. See Old, K. M. 571
- Old, K. M., Gibbs, R., Craig, I., Myers, B. J., and Yuan, Z. Q.—
Effect of drought and defoliation on the susceptibility of eucalypts to cankers caused by *Endothia gyrosa* and *Botryosphaeria ribis* 571
- Olsen, J. K., and Bell, L. C.—
A glasshouse evaluation of 'critical' N and P concentrations and N:P ratios in various plant parts of six eucalypt species 281
- Oxley, R. E. See Hodgkinson, K. C. 269
- Panetta, F. D.—
Isozyme variation in Australian and South African populations of *Emex australis* 161

- Panton, W. J. See Bowman, D. M. J. S. 593
- Pate, J. S. See Meney, K. A. 523, 543
- Peters, G. B., Lonie, J. S., and Moran, G. F.—
The breeding system, genetic diversity and
pollen sterility in *Eucalyptus pulverulenta*, a
rare species with small disjunct
populations 559
- Potts, B. M. See Gore, P. L. 383
- Prakash, N. See Cameron, B. G. 395;
Howell, G. 433
- Prober, S. M., Tompkins, C., Moran, G. F.,
and Bell, J. C.—
The conservation genetics of *Eucalyptus*
paliformis and *E. parvifolia*, two rare
species from south-eastern Australia 79
- Putz, F. E.—
Growth habits and trellis requirements of
climbing palms (*Calamus* spp.) in north-
eastern Queensland 603
- Read, J., and Busby, J. R.—
Comparative responses to temperature of the
major canopy species of Tasmanian cool
temperate rainforest and their ecological
significance. II. Net photosynthesis and
climate analysis 185
- Reeves, R. D. See Batianoff, G. N. 121
- Rundel, P. W. See Specht, R. L. 459
- Sedgley, M. See Fuss, A. M. 487
- Specht, R. L., and Rundel, P. W.—
Sclerophylly and foliar nutrient status of
mediterranean-climate plant communities in
southern Australia 459
See also Batianoff, G. N. 121
- Tompkins, C. See Prober, S. M. 79
- Vashistha, B. D. See Chopra, R. N. 177
- Vaughton, G.—
Predation by insects limits seed production in
Banksia spinulosa var. *neoanglica*
(Proteaceae) 335
- Volker, P. W. See Gore, P. L. 383
- Whalley, R. D. B. See Maze, K. M. 153;
McIntyre, S. 445
- Whelan, R. J. See Goldingay, R. L. 63
- Willis, A. J., and Ash, J. E.—
The breeding systems of *Stylidium*
graminifolium and *S. productum*
(Stylidiaceae) 217
- Yan, Z.—
Host specificity of *Lysiana exocarpi* subsp.
exocarpi and other mistletoes in southern
South Australia 475
- Yuan, Z. Q. See Old, K. M. 571
